According to IRS

Estimated taxes due by April 16

Those persons considering whether to file estimated taxes during 1984 have until April 16 to make up their minds.

Beginning with the 1983 tax year, every citizen or resident of the United States should pay estimated income taxes if their estimated taxes exceed withholding by $400. The IRS notes that you should not estimate taxes if you get a tax refund or if the tax balance due is less than $400.

Estimated taxes are paid quarterly on a schedule designated by the Internal Revenue Service with the first payment being in April. If you are interested in estimating your taxes, you should contact an IRS service center and get a form 1040 ES. The wheels will begin turning when you fill out the form and IRS will inform you of the due dates and estimated payments.

Remember that even if your withholding is more than $400, one of two other things have to occur.

-The taxpayer can reasonably expect to receive more than $500 of gross income from sources other than wages subject to withholding, or

-The taxpayer can reasonably expect gross income to exceed either (a) $20,000 if taxpayer is unmarried or a head of household, or a surviving spouse, or a married individual entitled to file a joint declaration of estimated tax, whose spouse does not receive wages; or

(b) $10,000 if taxpayer is married, entitled to file a joint declaration of income tax, where both spouses receive wages; or

(c) $5,000 in the case of a married individual not entitled to make estimated tax payments with spouse.

The burden is on the taxpayer to compute each estimated tax payment and pay the installment as it becomes due.

There are penalties for underestimating your taxes. The taxpayer who meets the qualifications to estimate taxes should be careful to make an accurate estimate because the penalty will be levied if the estimated tax is less than 80 percent of the actual tax. The fraction is two-thirds for farmers and fishermen.

The IRS suggests that those persons who have outside incomes that increase their taxes $500 above withholding often can avoid estimating their taxes by having their employers increase the amounts being withheld from their pay.

Additional information concerning estimated taxes can be obtained from a qualified accountant.

Mike McDowell elected to SS Young Farmers Advisory Board

Mike McDowell of Brookneal has been elected to Southern States Cooperative's Young Farmer Advisory Board, at a district Young Farmer meeting held Monday, Jan. 23, in Lynchburg.

Jim Jones of Lexington also was elected as the alternate advisory board member.

Young farmers attended the meeting at the invitation of local Southern States board and stockholder committee members.

During January and early February the cooperative is holding 10 of these young farmer meetings in the five states it serves, with an advisory board member being elected at each meeting. The advisory board will serve as a liaison between the cooperative and the young farmers it serves.

Robert W. Bryan, the cooperative's vice president of member and public affairs says the objectives of these sessions "are to involve young farmers in cooperative activities, inform them about their cooperative, help develop outstanding young farmers towards leadership roles in the co-op, and provide them with the opportunity to objectively evaluate how well the co-op is meeting their needs."

The Jan. 23, 1984 session at Lynchburg, heard a discussion by Bryan of cooperatives in the agribusiness community, with particular emphasis on Southern States. It was entitled "Cooperatives in Agribusiness." Members of the cooperative's regional staff also discussed "Southern States, Your Farm Production Partner."

In addition, there was a videotape presentation on the "Application of Microcomputers in Farm Management," featuring Dr. Joseph Coffey, the cooperative's director of economics and planning.

Young farmers attending the session from the local area was R. L. Cordell.
